

# **IETF 102 - HTTPtre**

<u>Julian Reschke</u>, greenbytes

#### **Current Status**

New set of drafts submitted in July:

- draft-ietf-httpbis-semantics-02 (diffs)
- <u>draft-ietf-httpbis-messaging-02</u> (<u>diffs</u>)
- draft-ietf-httpbis-cache-02 (diffs)

#### **HTTPbis Errata**

- 27 non-rejected errata in total, of which
- 13 "Verified", 9 "Held for Document Update", 5 "Reported"
- 18 addressed in -02 drafts, 9 open
- all mapped to issues on Github

Summary: <a href="https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://https://http

#### **Github issues**

- 122 in total, of which
- 79 open, 29 closed in -01
- 27 for errata (21 closed)
- 40 editorial (27 closed)

Summary: <a href="https://github.com/httpwg/http-core/issues">https://github.com/httpwg/http-core/issues</a>

Scheduled for discussion in Montreal: <a href="https://github.com/httpwg/http-core/labels/discuss">https://github.com/httpwg/http-core/labels/discuss</a>

### **ABNF**

Test suite? (need ABNF-driven parser)

Clearly separate message level from field level ABNF?

## Also worth discussing

Relation to other related specs, such as:

- <u>draft-ietf-quic-qpack</u> and <u>draft-ietf-quic-http</u>
- draft-ietf-httpbis-bcp56bis

...maybe <u>draft-ietf-httpbis-rfc6265bis</u>?
